

SPA VILLAGE BATH

Tapping into the original natural thermal springs, Spa Village Bath offers a contemporary perspective on the city's thermal water heritage. Coupled with the historic use of aromatherapy in Great Britain, this spa, within the Gainsborough Bath Spa hotel, gently supports the brand's philosophy of honouring the healing traditions of the region, while sharing the gift of select signature therapies of the original Spa Villages in Malaysia.

The opulent Bath House experience enables guests to "take the waters" in luxury. Guests will begin their visit with a circuit that includes dipping in three natural thermal pools of varying temperatures, traditional and infrared saunas, a steam room, an ice alcove and elegant relaxation areas.

Spa Village Bath integrates the treasured waters of Bath with private aquatic body therapies and classic treatments that focus on personalised aromatherapy, balancing the fine line between science and art.

The serene environment of the spa is bathed in natural light emanating from the glass atrium perched above the Bath House. Located over two levels, Spa Village Bath also features 1 treatment room which include a couples' suite with private access to the natural thermal waters, and 2 "tatami" rooms designed especially for the award-winning Asian therapies. Guests can satisfy their daily workout needs in the 24-hour fitness centre.

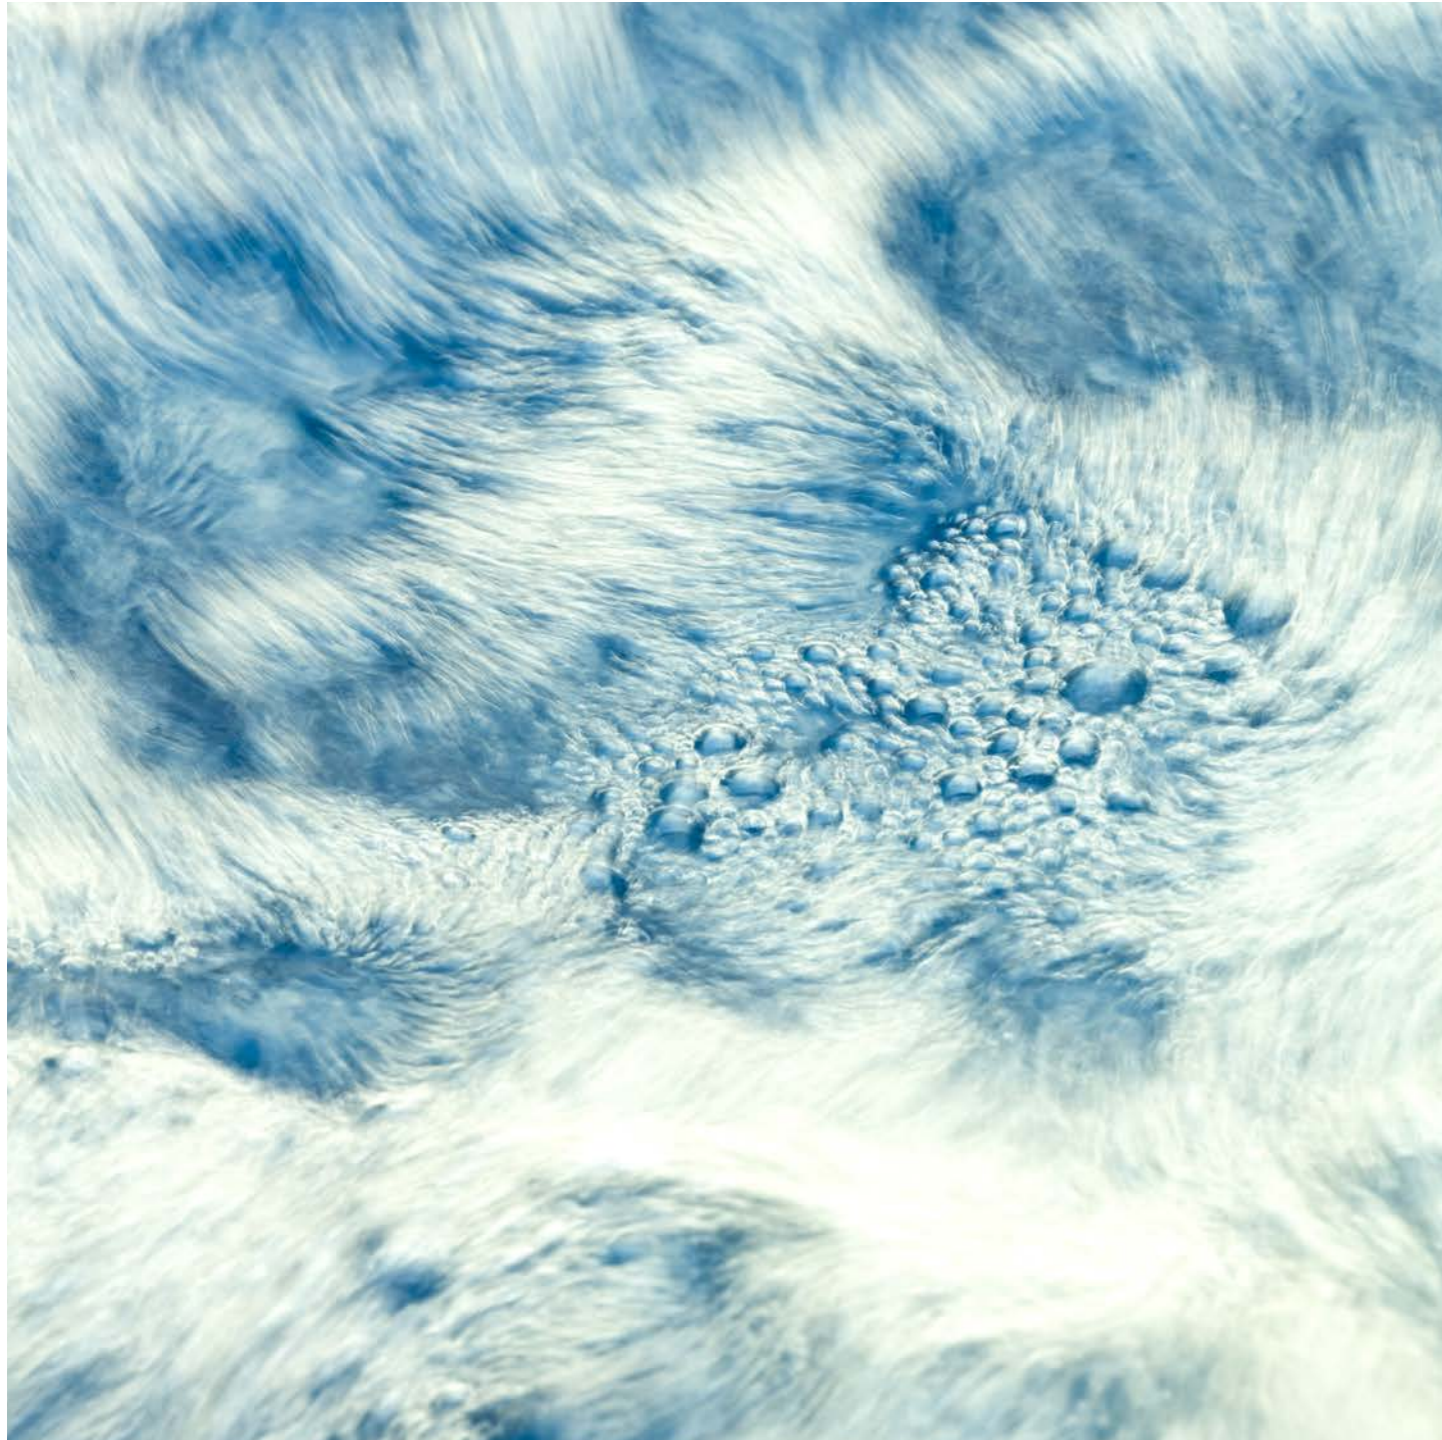

BATH HOUSE CIRCUIT

The natural thermal waters of Bath are the core of the Spa Village Bath experience. Guests are encouraged to allocate approximately one hour to fully enjoy the self-guided bathing circuit.

The Bath House is a facility for both ladies and gentlemen, and swimsuits are required. The Bath House is complimentary to all hotel guests of The Gainsborough Bath Spa during designated in-house bathing hours or with a scheduled spa treatment.

Members can enjoy the privacy of the members' lounge while relaxing and savouring the effects of their experience.

The Gainsborough Bath Spa guests who desire a more immersive spa experience can stay in one of the two Bath Spa guest rooms or the sumptuous Bath Spa Suite. All three rooms are located directly above Spa Village for the ultimate ease of access and include special baths that fill with the natural thermal waters.

MINERAL CURE RITUALS

The healing mineral-rich waters of Bath have been flowing for thousands of years. They have seen the rise and fall of civilisations around her and remain an eternal draw for health and wellness seekers. As current custodians of these treasured waters, we have the privilege to share with our guests a selection of the most powerful and curative mineral-based treatments. These treatments have been designed to intensify and continue the properties of our mineral-rich waters, easing muscles and joints, reducing inflammation, and detoxifying the body.

FOR THE BODY

HUNGARIAN MUD DETOX

85 Minutes

This deeply detoxifying and cleansing treatment utilises the curative nature of the mineral-rich Hungarian Moor Mud from Lake Hévíz. This body experience begins with a stimulating full-body exfoliation using sea salt, Hungarian Moor Mud, and capsicum peptide, followed by a warm healing mud wrap and a revitalising scalp treatment. After rinsing, enjoy a full-body massage using specialised firming oil that promotes youthful elasticity, reduces the appearance of stretch marks, and leaves the skin soft, silky, and re-mineralised.

Excellent for tired aching muscles, poor circulation, fluid retention, cellulite, stretch marks, jet lag, and disruptive skin conditions.

**Client note - This treatment requires showering and washing of the hair. Not suitable for pregnancy or sunburn.

GOLDEN BODY TREATMENT

85 Minutes

Our most luxurious body treatment to repair and soften skin. This treatment showcases the proven anti-inflammatory properties of gold, which helps to heal micro-damage in the skin and tissues. We begin with a gentle exfoliation using gold-enriched sugar, followed by an ultra-hydrating full-body massage employing warmed stones and a dreamy-scented shimmer oil containing Colloidal Gold to repair, calendula to calm, rice germ to nourish, and vitamin E to boost collagen.

**This treatment requires showering.

WARM MINERAL MUD SCRUB

50 Minutes

This detoxifying and relaxing treatment starts with a vigorous and stimulating exfoliation of the whole body, using warm Hungarian Moor Mud mixed with Dead Sea Salt and Capsicum Peptide to refine the skin texture, leaving it radiant and soft. A warm Firming Body Oil with Vitamin E, Sage, Rosemary, and Geranium is then used for a massage to boost skin elasticity while balancing and calming the body and senses.

**This treatment requires showering.

GOLD HYDRALIFTING MINERAL FACIAL

85 Minutes

A true anti-ageing remedy, this replenishing facial is the ideal prescription for dry, damaged skin, concerned with a lack of firmness and elasticity.

The Gold Hydralifting Facial harnesses the skin-strengthening power of colloidal gold, a potent anti-inflammatory that works to restore and repair the skin's barrier for a firmer and more youthful appearance. After a double cleanse and mild exfoliation to encourage cell renewal, the Gold Hydralifting Mask will provide an instant lift and deep hydration. A velvety flash-treatment with a delicate rose scent, this mask uses three forms of hyaluronic acid and bio-available gold to plump, nourish, and soothe skin while repairing micro-damage. While relaxing with the mask on, expect to fully unwind with a hand and arm massage, using Omorovicza's shimmering Gold Collection body icons. As a final step, the therapist will stimulate cell renewal and collagen production with an authentic Hungarian facial massage, warmed rose quartz wands, and cooling derma globes to de-puff the eyes, instantly lifting and firming skin.

**Excellent for mature skin types with anti-ageing, lifting, and firming results.
